<ul style="list-style-type: none"><li>Built fully functional websites with HTML, CSS, and JavaScript.</li><li>Implemented responsive design for optimal viewing across devices.</li><li>Added interactive features and functionalities to enhance user experience.</li></ul>	
<b>Teaching Assistant</b> <i>Coding Ninjas</i>	June 2023 – July 2023 <u>C++, Data Structure &amp; Algorithms</u>
<ul style="list-style-type: none"><li>Taking doubt sessions</li><li>Debugging codes</li><li>Helping students in their assignments &amp; various projects.</li></ul>	

## PROJECTS

<b>Student-Mangement System</b>	<u>Java, Spring(MVC), Thymleaf, HTML, CSS, JavaScript</u>
<ul style="list-style-type: none"><li>Implemented a robust student registration and login system with Thymeleaf, Java, and Spring for a comprehensive user experience.</li><li>Developed CRUD operations in a Spring Boot application, providing seamless interactions with a PostgreSQL database for student data management.</li><li>Integrated Thymeleaf templates to render dynamic web pages, ensuring a responsive and efficient front-end for the student management system</li></ul>	
<b>Portfolio</b>	<u>HTML, CSS, Bootstrap, JavaScript</u>
<ul style="list-style-type: none"><li>Built interactive portfolio for showcasing skills and projects</li><li>Ensured seamless navigation and user-friendly interface.</li><li>Strengthened personal branding and increased visibility.</li></ul>	
<b>Netflix Clone</b>	<u>HTML, CSS, Bootstrap</u>
<ul style="list-style-type: none"><li>Recommendations, watchlists, endless content discovery.</li><li>Responsive, intuitive navigation, lightning-fast loading.</li><li>Eye-catching hero, sleek grid, captivating thumbnails.</li></ul>	

## TECHNICAL SKILLS

**Code development:** C++, Java, VS Code, Github

**Subjects:** SQL, OOPs, Operating System(OS), Database Management System(DBMS)

**Technologies/Frameworks:** HTML, CSS, Node.js, React.js, JavaScript, Bootstrap, Spring, Thymeleaf

## ACHIEVEMENTS

---

- **#CampusBlock - Technical Vice Head**: Contributed to 2 hackathons & innovative projects, and provided tech support to 30+ students.
- **5 star coder** on **Hackerrank**.
- Frontend Developer for 'Legal Innovators', a top 10 university-level team at **Smart India Hackathon** (SIH).
- Solved more than 450 questions of DSA.

## CERTIFICATES

---

- Completed **Front-end development** authorized by IBM and offered through **Coursera**
- Completed the **Data Visualisation** course of Devetown sponsored by **MLSAC & GDSC**
- Certification in **DSA(C++)** by **Coding Ninjas**
